

PRODERAE (Process of Detection and Prevention of Radicalization and Extremism) Train of Trainers Course

Institut for Public Security oc Catalonia (ISPC)

Objectives: Update of the Theoretical Framework regarding Violent Extremism. Jihadism and the Alt Right. Provide new approaches to the study and explanation of processes of violent radicalization (PRV).

Target audience: Police of the Generalitat_ Mossos d'Esquadra Police officers, who collaborate in the implementation of the training program of PRODERAE projects in the fields of Police front-line officers, Catalonia and the Department of Education, as well as other services and administrations at the national, regional and local level in Catalonia .

Total Duration: 25 hours.

Your session: 2 hours . (Aprilt, the 16th. From 10:30 to 12:30)

Attendants to your session: 39 police officers

Feedback and report: the session was very complete and well appreciated by the attendees.

They also valued it very positively and well balanced, with one part focused on the context of the far right in Germany and another centered on a personal experience of violent radicalization in the area mentioned.

Live testimony was especially useful in order to be able to rethink aspects of the conceptual framework..
